A-Levels (predicted): Maths **B**, Chemistry **C**, Computer Science **A**

AS-Levels: Extended Project **B** *"Impact of Alan Turing in WW2"*

GCSEs: 10 A*-C (relevant grades: Computer Science **8**, Maths **8**, Further Maths **B**, Science **7**/**7**/**7**, English **7**/**7**)

Employment History

Customer Service Advisor - Test & Trace
Serco (Remote + Contract)   May 2020 - August 2020

Conducted outbound calls to a person in contact with another individual that has received a positive coronavirus test advising them to self-isolate, as part of the NHS COVID-19 contact tracing programme.

Accomplishments:
- Communicated effectively with the public.
- Solved any issues or queries that arise during a call while following escalation procedures.
- Updated records accurately and efficiently with 0% reported errors.
- Maintained an average adherence of above 97%.

Work Experience

Volunteer
Leicestershire County Council   June 2019

Worked with employees on various types of software to assist in development of existing systems.

Accomplishments:
- Amended current data held in the database that produced errors using **mySQL**.
- Constructed templates and implemented new, or altered existing, **JavaScript** validations.
- Extensively tested in development environments.

Related Work

StudyWith   { Live }   October 2018 - March 2020

Formulated digital content for a collaborative project sponsored by Lenovo and Sennheiser to provide e-learning for students of all ages.
